

## IDEAS FROM GARMENT DISTRICT (GDNA) COMMUNITY

### transportation

- safety when boarding/deboarding to/from Queen eastbound streetcar - options include
  - 1) streetcar stop on Queen east of Spadina (far-side of Spadina) with tunnel under Spadina to station
  - 2) pedestrian platform on Queen west of Spadina (near-side)
- curbside activity space - for passenger and goods - pick-up and drop-off (Uber, FedEx, etc) in the case of Queen curb of south building, space far enough west to not conflict with streetcar activity or subway enter/exit access
- bicycle parking (more than just a few "rings")
- bike share access where curbside space allows nearby

### community benefits

- public washrooms (self cleaning?)
- incorporate street-level retail geared towards local residents
  - (pharmacy, medical, ServiceOntario, dry cleaning, etc) PLEASE NO MORE BIG BOX STORES - keep the character of Queen Street alive with independent businesses
- small bank branches to replace the ones being converted
- meeting rooms for community organizations (GDNA, FoSTRA, Alex Wilson Garden, etc)
- incubation space for new business or classes (ie ESL)
- community access to "mini-library" ... ie
  - drop-off/pick-up library material; technology resources: printers, 3D printing, xerox, internet
- day care
- senior citizen services
- hazardous material drop-off (paints, batteries, etc)
  - nearest location (Commissioner Street) requires use or hire of a car
- organic refuse drop-off
- dog relief area

### built form

- oasis space - living walls, waterfalls, fountains inside or outside the station space
- heritage corner - permanent display of area's history
- green wall facing Morgan condo
